

DOVRA

BUILT FOR ADVENTURE

CATALOGUE
2025

An aerial photograph of a winter landscape. The scene is dominated by a dense forest of evergreen trees, their branches heavily laden with snow. A dark, winding road with white lane markings cuts through the snowy terrain, curving from the bottom left towards the right. The overall color palette is a mix of deep blues, greys, and bright whites, creating a serene and cold atmosphere.

**> MADE IN
THE HEART
OF SWEDEN**

**Where winters are extremely cold,
we spare no expense when it comes
to creating the ultimate vehicle for
adventure.**

There was no vehicle on the market that met our standards, so we created Dovra.

Designed for off-grid use, far from RV parks and plastic design, it is equipped for exploration as well as daily use.

Dovra is built for adventure and highly valued by individuals with a strong passion, enabling a new way of life.

Dovra Group

DOVRA
RIG X-610

THULE

> RIG X-610

Compact, agile, and built for adventure, the Dovra RIG X-610 is perfect for urban exploration and off-road terrains. With its smaller footprint, it's easy to maneuver in city environments while still offering high performance and reliability for rugged outdoor adventures. Whether navigating narrow streets or challenging landscapes, the RIG X-610 excels in versatility.

> MADE IN SWEDEN

In Sweden, we are accustomed to cold winters and at Dovra we know how to build reliable heating systems and insulate efficiently. Our water floor heating system is the result of a successful collaboration with the world-leading company Alde Heating. The electrical system from Victron Energy, including double lithium batteries and a powerful inverter, ensures power supply during your journey.

Due to the cold climate in Sweden, we Swedes spend a lot of time indoors, and we have a passion for interior design. With our 30 years of experience in furniture manufacturing for professional environments, Dovra can offer both well-built and cozy interiors with a hotel-like feel. Expect an exclusive atmosphere and outstanding quality. We are proud to build the ultimate adventure vehicle.

FULLY EQUIPPED FROM START

“A vehicle suited for challenging missions rather than casual camping.”

DOVRA
RIG X-610

Powered by know-how.

When you're ready to take your Dovra off the grid, no matter where adventure takes you, it's good to know the power of know-how is by your side. With over 45 years of experience, Victron Energy know what it takes to build off-grid systems that stand the test of time and harsh environments.

Energy. Anytime. Anywhere.

Dovra is full equipped with Victron's unbeatable products and you can expect optimal power supply and battery charging for remote living. With high-quality components and high-end installations, Dovra offers a reliable solution for living comfortably off the grid for many days.

Adventure with confidence.

Enjoying the comforts of home. Stay in control with our smart and reliable power system. Ensuring everything runs smooth for those epic, extended journeys.

- Victron Energy 3000W Inverter
- Victron Energy 400Ah Lithium Battery
- Victron Energy MPPT Regulator 50 amp
- Victron Electronic Battery Management System BMS
- Victron Energy Shore Power Management System

ADVENTURE > 365 NIGHTS A YEAR

Dovra is crafted for year-round adventures. The water-based heating system, developed in collaboration with Alde ensures a consistent and comfortable temperature regardless of the weather. Both the heating system and the vehicle's insulation have undergone rigorous testing in cold chambers, yielding impressive results. Dovra's insulation isn't just effective in winter; it also ensures a comfortable temperature during the hottest days of summer. Expect to be ready for the unexpected.

Control your heat (MBAC)

Easily set the perfect temperature via any of the vehicle's panels. With your smartphone, you can increase the heat just in time before you come home to your Dovra.

Insulation

Insulation made from recycled PET bottles. The Dovra has been tested with a thermal camera in Alde's cold chamber with impressive results.

Backdoor

Insulated backdoor with water-repellent surface. The included mosquito net allows you to keep the doors open without unwanted guests in the summer.

Webasto heater

Diesel heater with a heat exchanger for quick heating of the living area. The engine can also be heated using the Alde heater.

Alde

Alde Compact 3030 plus with continuous hot water.

Underfloor heating

Waterborne underfloor heating for maximum comfort year-round. The convectors in the Dovra eliminate the risk of cold drafts and condensation.

Built for Adventure.

Dovra is developed from the ground up for off-road use, not converted from regular motorhomes. The vehicles are designed to withstand the toughest conditions on all your adventures. The Tire Set-up for example, Black Rhino Arsenal with BF Goodrich All-Terrain Tire.

Designed by Dovra.

Engineered by off-road enthusiasts, Dovra designs all equipment, from rock sliders to roof racks. Our own gear is complemented by components from world-leading manufacturers, such as a total of 19 LEDs from Vision X.

The details create the whole.

Dovra is developed by adventurers who know which features simplify off-grid living. Expect smart storage, practical functionalities, and clever details. For example bottle opener at the rear step.

> COMFORTABLY BEYOND YOUR COMFORT ZONE

Dovra is designed for adventure, promising comfort and convenience wherever you go. With smart features and a gear carrier system, is your Dovra always ready for new journeys. Advanced technology keeps you connected on the move, while luxurious accessories guarantee comfort. Explore new horizons and experiences without sacrificing the comforts of home.

Rear Door Carrier System

Mounted on right and left door with 5th wheel and Dovra box.

WiFi

Go off-grid – stay connected.

Electric Awning with LED

Easily controlled via MBAC or your mobile device.

Mercedes Benz Sprinter Chassis

190hp 4-cylinder engine, automatic transmission, and 4x4 capability, generously equipped for all your adventure needs.

Outdoor shower

Get used to spa-like experiences in complete freedom and easy cleaning of everything from bikes to hiking boots.

Gas outlet

For convenient outdoor cooking.

Inviting entrance

Remote-controlled sliding door with mosquito net provides easy access and insect protection. Control the heating and lighting via your mobile phone before arrival for a warm and welcoming atmosphere.

> DOVRA ADVANCED CONTROL SYSTEM

Dovra's Digital Panel, integrated with the Mercedes MBAC system (Mercedes Benz Advanced Control), offers adventurers unparalleled control and convenience. From the driver's seat, Dovra's panel above the sliding door, or your smartphone, you can manage all key functions effortlessly. Adjust the living area temperature from the driver's cabin, select preset lighting settings from Dovra's panel, or extend the awning from your mobile device. Wherever you are, control essential functions from a single interface. This advanced system is incredibly easy to use, ensuring you focus on your adventure without hassle.

Technical

- Adjust the living area temperature
- Extend and retract the electric awning
- Turn on the LED lighting on the awning
- Monitor and manage energy usage
- Check fresh water levels
- Check gray water levels
- Empty the gray water tank
- Adjust lighting with preset options
- Set the refrigerator temperature

**> DEVELOPED FROM

Recharge and discover new adventures.

Welcome to the peaceful sleeping area of the Dovra, located at the rear of the vehicle. Here, comfort and functionality blend seamlessly with a soft mattress supported by body-relieving springs, creating a relaxing oasis. Adjust the ambiance as needed with lighting easily controlled from your smartphone or the convenient wall-mounted quick-access buttons. Luxurious black aluminum reading lamp adds a touch of elegance. You have constant access to power

through USB-A and USB-C outlets, along with 230-volt outlets in the bed area and two other locations in the vehicle.

Opening the rear doors and discover new adventures every day, while the integrated mosquito nets keep out unwanted summer guests. Whether winding down after a day of adventure or preparing for a peaceful night's sleep, the Dovra's sleeping space ensures that every journey concludes in comfort and style.

Gourmet wilderness kitchen.

Discover the well-appointed kitchen area of the Dovra, designed to be both functional and stylish. At its heart is the versatile Dometic refrigerator with double-hinged doors, allowing you to open it from either side for ultimate convenience. The kitchen also features a dual-burner gas stove, perfect for preparing delicious meals, no matter where your adventures take you. The stainless steel sink ensures durability and easy maintenance, while the high-

quality cabinets provide ample storage space for all your cooking essentials. A brushed black aluminum faucet adds a touch of modern elegance and practicality. To enhance your outdoor cooking experience, the Dovra includes an external gas outlet, ideal for connecting a grill. Whether you are cooking inside or outside, Dovra's kitchen ensures that you have everything you need to create gourmet meals in the wilderness.

- Dometic 12V compressor refrigerator, 70 liters (RIG-X 610)
- Dometic 12V compressor refrigerator, 157 liters (RIG-X 750)
- Dual-burner gas stove
- Stainless steel sink
- Handles in brushed black aluminum
- Metal panel above the sink and under cabinets for magnetic utensils and cups
- 230V outlets

Spacious and Comfortable Living Room.

- Leather upholstery (fabric as option without extra cost)
- Lounge sofa with detachable upper part
- Table adjustable in three directions
- Reversible front seats
- Sockets for USB A, USB-C, and 230V
- Reading lamps with USB-C sockets in black aluminum
- Spacious storage
- Dovra Premium Sound system
- Adjustable lighting with quick selection
- Curtains and mosquito nets

Step into the Dovra's living area, where comfort meets sophistication. Our meticulously designed sofa features a perfect incline to keep you comfortable during long journeys. Upon arrival, the upper part of the backrest can be effortlessly detached and mounted to the wall, transforming your seating into a lounge sofa with armrests, ideal for relaxation.

Leather upholstery adds a touch of luxury, while a refined fabric option is also available for those who prefer a different aesthetic. The spacious, adjustable table serves as an excellent dining area or a convenient workspace. Beneath the table, you'll find USB-A, USB-C, and 230V outlets, ensuring all your devices stay powered.

The living area's lighting is easily customizable with quick-select buttons on the control panels, via your smartphone, or through convenient quick-access buttons. The warm, inviting interior is complemented by stylish curtains and ample storage solutions. Additionally, the Dovra Premium Sound system, featuring an active subwoofer and Alpine speakers, delivers an unparalleled audio experience, making your time in the living area truly enjoyable.

■ Upon arrival, the upper part of the backrest can be effortlessly detached and mounted to the wall, transforming your seating into a lounge sofa with armrests, ideal for relaxation.

> In a Class of Its Own.

Dovra is an experience that must be seen and felt in person. Every touch exudes luxury and impeccable craftsmanship. While Dovra is technologically advanced, we've invested significant time and resources into ensuring it's easy to use, allowing you to focus entirely on your adventures. If you appreciate top-tier quality, you'll immediately recognize the distinction. Stepping inside, you'll find it hard to consider any other option.

Cozy Curtains

Dovra's own design for blackout and mosquito net curtains

External Lighting

Work lights easily controlled from the driver's seat. Additional lighting with automatic switch to high beams.

Dovra Premium Sound

Alpine speakers on the dashboard and one active subwoofer integrated into the floor for deep, immersive sound.

Metal Gas Cabinet

Space for two large gasbottles, Duo Control CS and convenient pull-out shelf for easy replacement.

Outdoor Shower

Behind the rear doors, you'll find a robust outdoor shower — perfect for refreshing after a long day in the wilderness or cleaning your mountain bike.

External Gas Outlet

Convenient access for outdoor cooking.

A LIFE OF ADVENTURE

Jonas Classon, acclaimed bird photographer, overcame illness to win global acclaim. Now with his Dovra RIG X-610, he pursues stunning images worldwide.

The Dovra revolutionizes my work. With this vehicle, I can always be in the right place at the right time, enabling me to capture even more stunning photographs.

Jonas Classon
Photographer
Sweden

Passion ignited a lifelong journey as a world-renowned photographer.

Jonas Classon has dedicated his life to photographing birds. At just 27 years old, he has made an incredible journey from battling severe illness in his youth to winning one of the world's largest photo competitions. Now, his journey continues in his very own Dovra RIG X-610.

Jonas's fascination with birds began with Whooper swans at Lake Tysslingen in Sweden, where thousand of them captivated him. This passion deepened during his three-year hospital stay, when a teacher named Nils took him out into nature, sparking his dream of becoming a bird photographer.

The turning point in his career came in 2019 when he captured a great

grey owl in the moonlit forests near his home in Kumla. This photo won the prestigious Siena International Photo Awards in the "Animals in their Environment" category, chosen from 48,000 entries worldwide.

Jonas's career took another leap when he became one of Canon's ambassadors, joining an elite group of only three Swedish photographers. This role provides him with access to the latest technology, allowing him to push the boundaries of his craft.

With his new Dovra , Jonas gains unparalleled freedom in his photography work. He can effortlessly charge his camera batteries and reach remote locations. Waking up by a bird

lake at 3:00 AM to capture the perfect light is no longer a challenge. If the light conditions aren't ideal, he can simply go back to sleep and try again an hour later. "The Dovra revolutionizes my work. With this vehicle, I can always be in the right place at the right time, enabling me to capture even more stunning photographs," Jonas says.

Jonas's upcoming projects include a large, secretive Scandinavian venture and a major exhibition tour in Asia. "Both as a person and as a photographer, light has always been my focus, and it has never looked brighter than now," he concludes.

The image that made Jonas Classon world-famous: A great grey owl in the moonlit forests near his home in Sweden and awarded at the Siena International Photo Awards.

Jonas, one of Canon's selected ambassadors, captures the moment with his camera, immersed in his work of documenting the beauty of nature and the birdlife.
